Tyler Chen

tyler.chen@nyu.edu https://chen.pw

Academic Positions

Assistant Professor / Courant Instructor

- Mathematics at Courant, Computer Science and Engineering at Tandon
- Sponsor: Christopher Musco

Education

Ph.D. in Applied Mathematics

- Thesis: Lanczos-based methods for matrix functions
- Advisors: Anne Greenbaum, Thomas Trogdon

M.Sc. in Applied Mathematics

B.S. Summa Cum Laude in Mathematics and Physics; Minor in Studio Art

Research Interests

I'm particularly interested in incorporating probabilistic techniques into classical algorithms to develop methods which are fast and reliable, both in theory and in practice. Right now, I work mainly in the field of numerical linear algebra on Krylov subspace methods such as the conjugate gradient and Lanczos methods. I hope that my work will help to bridge the gaps between numerical analysis, theoretical computer science, and applied computational sciences such as quantum physics.
